GAMH - Our Approach

Glasgow Association for Mental Health is an independent Scottish charity that provides community based support to the people of Glasgow and their communities. The services and opportunities we offer help people who are recovering from mental health problems to live the lives THEY want to live. We also support Carers, including Young Carers and promote the equality, inclusion and human rights of people who have been affected by mental ill health. We work with people in ways that encourage hope (belief that recovery is possible) learning and self confidence. We recognise that people are the experts in their own lives and their own health. They are experts by experience and have the right to make their own choices and decisions.

We recognise that the effects of inequality and stigma and discrimination make recovery more difficult than it should be and undermine people’s sense of wellbeing. As an organisation we work to ensure that both as a service provider and as an employer, we avoid discrimination and promote fairness and inclusion for everyone.
